START THE CONVERSATION

Do you ever find yourself pulling clothes out of the dryer only to realize they're overdried and wrinkled?

TOP FEATURES

1

AUTO DRY

Help prevent overdrying with the Auto Dry setting that senses when clothes have reached the right moisture content and stops the cycle.

2

WRINKLE PREVENT OPTION

Don't worry about forgetting to take laundry out of the dryer. The Wrinkle Prevent option intermittently tumbles clothes after the cycle ends to help prevent wrinkles from forming.

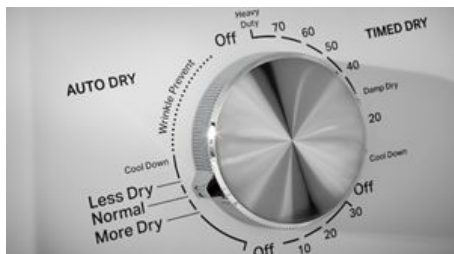

3

HAMPER DOOR

Sweep laundry onto the open hamper style door and keep it off the floor. The latch-free door drops down and closes seamlessly, giving you a sturdy platform for unloading, folding and stacking.

DID YOU KNOW? Overdrying not only wrinkles your clothes but also damages the fibers, leading to fading and shrinkage

HOW TO DEMONSTRATE

AUTO DRY

Point to the Auto Dry Cycle and explain that you don't have to set a specific time. Auto dry will automatically adjust the drying time based on the monitored temperature inside.
