START THE CONVERSATION

How much do you think you could save on energy bills with an upgraded refrigerator?

TOP FEATURES

1

ENERGY STAR® CERTIFIED

Experience maximum savings on utility costs with ENERGY STAR® certified refrigerators that reflect industry improvements in insulation and compressor technology to use less energy without sacrificing features.

2

ADJUSTABLE GALLON DOOR BINS

Move the adjustable bins anywhere in the door for increased loading flexibility when and where you need it.

3

FRAMELESS GLASS SHELVES

Store more on each shelf without the plastic frames that can cause items to rest unevenly and topple over. The wall-to-wall design of these glass shelves means more can fit on each shelf, while the smooth surface prevents items from falling through the cracks.

DID YOU KNOW?

Refrigerators over 10 years old could cost about \$110 per year to run,(1) making ENERGY STAR® certified models more cost-efficient.
(1)EnergyStar.gov.

HOW TO DEMONSTRATE

ENERGY STAR® CERTIFIED

Show customers a 60-watt incandescent light bulb. Assure them that this refrigerator model will use less energy over a year than the light bulb. What a savings!
